Önce Güvenlik

Paşabahçe Professional olarak cafe, bar ve restoranların kalabalık ve yüksek tempolu mutfaklarında güvenliğin ne denli önemli olduğunu biliyoruz. Bu nedenle sertleştirilmiş ürünlerden oluşan çok geniş bir portföy oluşturmak için çalışıyoruz. Ağız temperleme ve full temperleme teknolojileri ile maksimum güvenliği ve dayanıklılığı estetikten ödün vermeden sağlıyoruz.

Safety Comes First

Paşabahçe Professional, we know the importance of safety when it comes to exceptionally busy kitchens of restaurants, bars and cafe's. Therefore we put our highest efforts on developing a wide range of tempered glassware for maximum safety, for superior resistance and durability of our products.

Full Temperleme

Full temperleme prosesiyle erime noktasına kadar ısıtılıp kontrollü soğutma uygulanan cam ürünlerin darbelere ve ısı değişimine olan dayanıklılığını artırırken, olası kırılma durumunda küçük ve zararsız parçalara ayrılması sayesinde yaralanma riskini en aza indiriyoruz.

Fully Tempered

Heating the glass up to its melting point followed by a controlled cooling process increases the durability of the glass against shocks and sudden heat changes. Tempering also ensures a safe breakage. Glass shatters into small and safe pieces eliminating the risk of injuries.

Ağız Temperleme

Bardakların ağız bölgesine yoğun ısıtma ve soğutma uygulanarak gerçekleştirilen ağız temperleme işlemi sayesinde özellikle profesyonel kullanımda kırılma, çatlama önüne geçiyor, bardakların ömürlerini uzatıyoruz.

Rim Tempered

Concentrating heat on the rim area followed by an instant cooling using special techniques allows us to increase the durability and strength of the rim therefore prevent chipping and early breakages

Ekstra Dayanıklılık

Tabak ve kase gibi savurma prosesiyle üretilen ürünlerimiz, ani ısı değişimleri ve darbelere karşı ekstra güçlendirilmektedir.

Extra Resistant

Our plates and bowls, produced by spinning technology are heat strengthened against thermal shocks and breakages.

Kusursuz İçim Keyfi

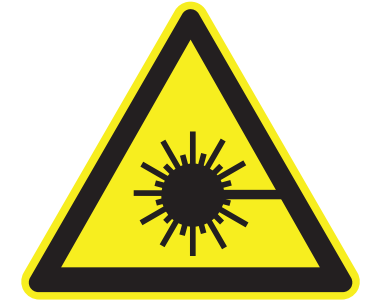

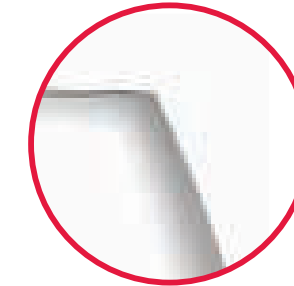

En büyük hedeflerimizin başında farklı içecek türleri için geliştirdiğimiz sayısız formdaki bardaklarımızın en mükemmel içim deneyimini yaşatmalarını sağlamak ve bunu yaparken sağlamlık ve güvenlikten asla ödün vermemek geliyor.

Bardak ağızlarına uyguladığımız farklı teknikler sayesinde içim keyfini mükemmelleştiriyoruz.

Perfect Drinking Experience

One of the biggest challenges and our biggest goals is to achieve the perfect drinking experience for every different kind of spirits and beverages while never compromising safety and durability.

Various techniques applied to rims of the glasses helps us to offer perfect drinking experience.

Lazer teknolojisi kullanılan Fine Rim tekniği ile kusursuzlaştırdığımız bardak ağızları sayesinde hem içim keyfini artırıyoruz hem de yoğun kullanıma maruz kalan bardakların ömürlerinin uzun olmasını sağlıyoruz.

Laser technology applied to rim areas of glasses enables us to enhance drinking experience as well as to extend the life cycle of glasses exposed to intensive use.

El Değmeden Kalite Kontrol

Paşabahçe tesislerinde bulunan üretim hatlarının tamamına yakınında otomatik süreçlerle, el değmeden ve hataya yer bırakmadan kalite kontrol ve hatalı ürün eleme yapılmaktadır. Son teknoloji inspection cihazları ve algoritmalar ile görüntü ve ağız hataları, ayak gövde hataları ve boyalı ürünlerde renk kontrolü, ton farklılıkları kolaylıkla tespit edilmekte ve hatalı ürünler elenmektedir.

Fully Automated Inspection

Almost all of production lines located in Paşabahçe facilities are inspected by fully automated Inspection Technologies. Cutting edge technology inspection machines that use sophisticated algorithms help us to detect and eliminate the flaws on body, rims, stems. Advanced color and hue inspection is applied on decorated and colored glassware.

Canlı Renkler, Benzersiz Desenler

Her sezon hızla değişen renk ve desen trendlerini ev ve iş yerlerinize taşıyabilmeniz için yüksek teknolojiye sürekli yatırım yapıyoruz. Farklı baskı ve boyama tekniklerini cam ürünlerimize işleyen dekor hatlarımızla daima "en yeni" kalmanız için çalışıyoruz.

Vibrant Colors, Unique Patterns

We invest in the highest technology to make sure that you reflect the latest trends in colors and patterns to your home and business. Our 27 decoration lines decorate our glassware with wonderful colors and breathtaking patterns to keep you always «a la mode».

Markanızın Ruhunu Camlarımıza Yansıtın

BARDAKLAR VE KADEHLER / DRINKWARE

İçeceklerin kıvamı, lezzeti ve kokusu kadar sunum biçimi de içim keyfini etkiler. Şık bir sunum önce göz zevkini harekete geçirerek, damağı arkasından gelecek lezzete hazırlar. Farklı tür içecekler farklı kadeh veya bardaklarda gerçek tadını ve anlamını bulur. Kimi içecek aromasını ortaya çıkaran geniş gövdeli bir bardağa ihtiyaç duyarken kimisi mucizesini ağız kısmında genişleyen ince bir cam kadehte bulacaktır. Paşabahçe, klasikten yenilikçi ve modern tasarımlara uzanan geniş ürün yelpazesıyla, her tür içeceğin içim keyfini zirvede yaşatacak farklı seçenekler sunuyor.

The presentation style of beverages influences the pleasure of drinking as much as their consistencies, tastes and aromas. An elegant presentation style first moves the eyes to pleasure, then prepares the palate for the coming taste. Different kinds of beverages find their authentic tastes and meanings in different cups and glasses. While some beverages need a wide mug to express their aromas, others reveal their miracles in a thin glass that widens at the rim. Paşabahçe offers different options that take the drinking pleasure of every kind of beverage to the very summit with its wide product line, ranging from the classic to the innovative and modern.

5. ELEMENT BARDAK VE BİRA...

Biranın tadını, aromasını ve görüntüsünü etkileyen 4 temel element, biranın hammaddeleri olan malt, su, şerbetçiotu ve mayadır. Bu 4 temel element kadar önemli bir diğer unsur ise; 5. Element olan, biranın servis edildiği bardaktır.

Almanların buğday biraları, İngilizlerin Ale biraları, Belçika'nın manastır biralarının herbiri kendilerine özgü, yüzyıllar içinde geliştirilmiş özel bardaklarda içilir. Bu bardaklar, içerisinde servis edilen biranın köpük, aroma ve renk gibi unsurlarını maksimum düzeye çıkartmak için zaman içerisinde geliştirilmiştir. Sıkı köpüklü biralara özel bardaklar, biranın köpüğünü dik tutacak biçimde ağız kısmında daralırken; bol köpüklü biralara özel bardaklar ise köpüğü taşıyacak kadar geniş bir hacme sahiptirler. Aroması yoğun biraların bardakları ise, ağız kısmında daralıp genişleyerek aromanın burna daha kolay ulaşmasını sağlar. Kolay içimli biralara ise fazla aromatik olmadıklarından dolayı, düz gövdeli bardaklarda tercih edilirler.

Biranın, özelliklerine uygun bardakta içilmesi, lezzetini arttırdığı gibi; şerbetçiotundan, malttan veya mayadan gelen kendine özgü lezzetlerini de ortaya çıkarır. Bu bağlamda, biranın doğru bardakta içilmesinin biraya katkısı, hammaddelerinin katkıları kadar önemli olmaktadır.

Maya, malt, şerbetçiotu ve sudan oluşan 4 temel hammadde; biranın tadını ve kokusunu belirler. Bu özellikleri en iyi şekilde algılayabilmek adına, biranın temel 4 hammaddesine ek olarak, bardağı 5. Element olarak adlandırıyoruz.

5TH ELEMENT GLASS AND BEER

4 main elements that affect the taste, flavour and appearance of beer are malt, water, hop and yeast, which constitute the ingredients of beer all together. In addition to these 4 elements, the glass, in which the beer is served is as much important as the aforementioned elements.

Wheat beer of Germany, Ale beers of England and Trappist beers of Belgium are all drunk in special glasses that are unique to them and that are developed in centuries. These glasses are developed in time to optimize various components of the beers served in these glasses, such as foam, flavour and colour etc. Glasses that are specific to beers with thick head become narrower at the rim in a way to hold beer foam vertically; glasses specific to beers with plenty of foam have a large volume to contain the fluffy head. Glasses of the beers with intense aroma ensure that the aroma reaches to the nose easily by becoming narrower and then larger at the rim. Since easy drinking beers are not very aromatic, glasses with plain bodies are preferred.

Drinking a beer in a glass suitable for its characteristics increases its taste, and it also reveals the unique flavours that come from its unique hop, malt or yeast. In this context, benefit of drinking a beer in the right glass is as much important as the benefits provided by its ingredients.

4 main ingredients that are comprised of yeast, malt, hop and water determine the taste and smell of the beer. In addition to those 4 main ingredients of beer, we name glass as the 5th element in order to perceive aforementioned characteristics in the best possible way.

STOUT & PORTER GLASS

Ekstra kavrulmuş malttan gelen aromatik yapı ve acılık bardağın bombeli bölümünde toplanır. Lale ağız ise aromaları en iyi biçimde burun ve ağıza ulaştırır. Daralan ağız, "stout & porter"lara özgü kremamsı köpüğü en iyi biçimde toplayıp dikleştirir.

Aromatic character and bitterness, which come from extra roasted malt, are gathered in the curved section of the glass. Tulip shaped rim ensures that the aromas are received by the nose and mouth in the best possible way. The narrowing rim gathers and steepens in the best possible way the creamy head that is unique to stouts and porters.

WHEAT BEER GLASS

Bu bardak, geleneksel buğday biraş bardağı şekli ile buğday biraşına özgü sıkı köpüğü dik tutarak bardağın üst kısımlarında toplar. Aynı zamanda, buğday biraşına özgü meyvemsi aromaların, biranın bardağa dökülmesi sırasında açığa çıkmasını sağlayarak biranın aromatik profilini en iyi biçimde ortaya çıkarır.

This glass steepens thick head that is unique to the wheat beer and gathers it at the top of the glass thanks to its traditional wheat beer glass shape. It also reveals the aromatic profile of the beer in the best possible way by ensuring that the fruity flavours, which are unique to the wheat beer, are revealed as the beer is being poured into the glass.

UYGUN BİRA TÜRLERİ / SUITABLE BEER TYPES

BLONDE ALE GLASS

Bardağın tasarımında, İngiliz ve İrlanda tarzı "nonic pint" kadehine özel formda bulunan bombe, içe verilmiştir. Bu bardakta içilen biralara, aromatik yapıları nedeni ile ağız tarafında bir daralma gerektirmemekte, bu nedenle bardağın formu hafif bir açılı ile yukarıya doğru genişlemektedir. Bardağın gövde kısmında bulunan ters "nonic", formu, kavrayışı kolaylaştırmaktadır. Özellikle her birayı tek bardak ile servis eden İngiliz pub'ları için ideal formdadır.

This glass is the inward curved version of the English and Irish style nonic pint glass, which has an outward curve. Beers that are served in this glass do not require a narrow rim due to their aromatic characteristics, and thus, shape of the glass slightly widens at the rim. Reverse nonic, located couple of inches from the rim, makes it easier to grip the glass. It has an ideal form particularly for English pubs that serve every kind of beer in the same kind of glass.

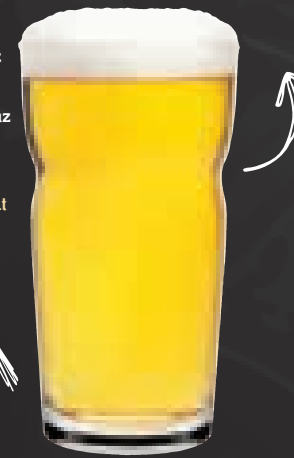

UYGUN BİRA TÜRLERİ / SUITABLE BEER TYPES

American Pale Ale, American Amber Ale, American Brown Ale, American Porter, Baltic Porter, American Stout, American IPA, American Specialty IPA, Black IPA, English Golden Ale, English Bitters, English IPA, English Mild Ale, English Brown Ale, English Porter, Scottish Ale, Sweet Stout, Oatmeal Stout, Irish Extra Stout,

BELGIAN ALE GLASS

Konyak formunu çağrıştıran bu kadeh, geniş gövdesi sayesinde şışede olgunlaşmış biralaların yoğun ve sıkı köpüğünü, hacmen taşıyabilmektedir. Bununla beraber, bu biralaların narın veya kavruk aromalarını gövde içerisinde toplayıp, daralıp genişleyen lale biçiminde ağız ile en iyi biçimde sunmaktadır. Özellikle yüksek alkolü ve/veya şışede olgunlaştırılmış "ale" biralara için önerilmektedir.

This glass that reminds of cognac form manages to carry intense and thick head of bottle conditioned beers thanks to its wide body. Furthermore, it collects delicate or roasted aromas of these beers in its body and serves the same in the best possible way by its rim that is narrowed and widened in tulip form. It is suggested particularly for ale beers with high alcohol content and/or bottle conditioned ales.

UYGUN BİRA TÜRLERİ / SUITABLE BEER TYPES

LAGER GLASS

Bu bardağın formu, elde keyifli bir kavrama sağlarken, alt bölümündeki belirgin iki bombe, biranın kadehe dökülüşü esnasında aromaları sökmekte; üstteki geniş bombe ve lale formlu ağız ise, bu aromaları toplayıp, buruna ve ağıza en ideal şekilde ulaşmasını sağlamaktadır. Özellikle yüksek acılıkla ve aromatik lager biralara uygun olduğu gibi, acılığı yüksek IPA tarzı "ale" biralara ile kullanımı da tavsiye edilir. Ayrıca, kalın tabanı sayesinde, biranın soğukluğunu uzun süre muhafaza eder.

The form provides superior gripping experience, and two curves that are significant at the bottom area remove the aromas during pouring of the beer into the glass. Wide curve and tulip shaped rim available at the top gather these aromas and ensure that they are transferred to the nose and mouth in the most ideal way. It is particularly suitable for lager beers that have high level of bitterness and that are aromatic, and it is also suggested to be used with IPA style beers with high level of bitterness. Also, this glass maintains the coldness of the beer for longer periods thanks to its thick base.

UYGUN BİRA TÜRLERİ / SUITABLE BEER TYPES

SICAK İÇECEKLER / HOT DRINKS

Güne mutlu başlatan bir bardak demli çay, günün yorgunluğunu alan sıcak bir kahve; dinlendiren, huzur veren sağlık dolu bir bitki çayı... Sıcak içecekler günün her saatinde keyifle içiliyor, içimizi ısıtıyor. Bu lezzetler farklı ve şık sunumlarla sıradanlıktan uzaklaşıp, bambaşka bir keyfe dönüşüyor. İştah açıcı rengini gözler önüne seren cam bir kupada köpüğünün çekiciliğini sergileyen kahve göz alıcı bir görüntü sunarken, bir bardak çayın üstünde tüten duman iştahımızı kabartıyor. Paşabahçe her tür sıcak içecek için keyif dolu tasarımlarla sunumlara şıklık ve keyif katıyor.

A freshly brewed cup of tea starting the morning, a piping hot coffee to take away the tiredness of the day, a relaxing and comforting cup of herbal tea full of health... Hot beverages are drunk with pleasure at all times of the day, warming our spirits. With elegant and distinctive presentations, these tastes drift away from normality, transforming into a completely different joy. While coffee proffers an eye-catching presentation by displaying the attractiveness of its foam in a glass cup that in turn displays its own appetizing colors, the steam rising from the surface of a cup of tea increases our appetite. Paşabahçe adds elegance and pleasure to presentations with designs full of joy for every kind of hot beverage.

ÜÇÜNCÜ JENERASYON KAHVE AKIMI

Son yıllarda adını ve adım başı kokusunu sıkça duyduğumuz, yeni açılan kahve mekânlarıyla trend yaratan üçüncü jenerasyon kahve akımı; kahvenin bir nevi kültüre dönüşmüş hali aslında. Üçüncü dalga diye de tabir edilen bu akımı tam anlamıyla anlatabilmek için öncelikle birinci ve ikinci akımlardan söz etmek gerekir elbette. Birinci dalga olarak tabir ettiğimiz, hepimizin bildiği, hala yaygın bir biçimde kullanılan, sıcak suya karıştırılarak yapılan hızlı kahve. İkinci dalga ise zincir satış noktalarında Espresso, Capuccino, Latte vb. kahvelerin lezzetli ve hızlı bir şekilde servis edilmesini kapsıyor. Üçüncü ve konumuz olan kahve akımı ise daha butik bir anlayışla, kahve çekirdekleri ve türlerini özenle seçerek, kahve hakkındaki bilgiyi mümkün mertebe aktararak, daha ağır aşamalarla daha doygun tatlar elde etmek için uygulanan ritüellerin bütünü. Örneğin üçüncü dalga bir kahve dükkânına sahip olmak istiyorsanız, kahve çekirdeklerini özenle seçmeli, harman yerine tek tür kahve çekirdeği ile her çekirdeğe uygun üretim şeklini bilmeli, zanaatkâr demleme yöntemlerini uygulamalısınız. Kahvenin hakkını vererek, onu şarap ve yemek gibi bir kültür haline getiren ritüellerin bu kadar popüler olması şaşırtıcı değil elbette. Çünkü kahve bunu hak ediyor aslında.

THIRD WAVE COFFEE

The third wave coffee, which has set a trend with the newly-opened coffee shops and is a term we frequently encounter recently, is kind of a new culture around coffee. In order to explain this concept referred to as the "third wave" movement, we first should make a brief explanation about the first and the second waves. The first wave movement is the use of instant coffee, which is still common today and which is prepared by mixing the instant coffee with hot water. The second wave is about serving coffees such as espresso, cappuccino, latte, etc. in chain sale points in a delicious and fast manner. The third wave addressed here is a set of rituals including carefully selecting coffee beans and types with a lot more boutique approach, providing information on coffee as much as possible and offering much more satisfying tastes through more advanced stages. For example, if you want to own a third wave of coffee shop, you should carefully select coffee beans, prefer single-type coffee beans instead of coffee blends and know the production method for each bean variety, and artisan methods of coffee brewing. The popularity of these rituals which have turned simple act of drinking coffee into a culture, such as wine or cooking, is no surprise as it is now being afforded the importance it deserves.

SERVİS VE SUNUM / SERVEWARE

Şık ve kaliteli bir sunum en küçük detayında bile tarzını, stilini hissettirmeli, en ince ayrıntısına kadar özenle hazırlandığını ortaya koymalıdır. Sofraya gelen ne varsa, sofranın bütünlüğüne ve yeme-içme keyfine katkıda bulunmalı, her bir parça sunumun zarafetini tamamlamalıdır. Yılların getirdiği deneyimi, çağın gereklilikleriyle birleştirerek sofraların baştaacı olan Paşabahçe, sofraların tüm ihtiyaçlarını giderecek zarif tasarımlar sunuyor. Gelenekselden moderne, klasikten sıra dışına her tür sunum için ihtiyaç duyduğunuz tasarımları bu bölümde bulabilirsiniz.

An elegant and quality presentation should show and make you feel its style even in the smallest detail and that it has been prepared with care down to fine points. Whatever comes to the dining table should contribute to its wholeness as much as the pleasure of eating and drinking. By combining years of experience with the needs of the times, Paşabahçe, which is at the fore of design for the dining table, offers designs of elegance that meet all dining table needs. You can find the designs you need for every type of presentation in this section from the traditional and classic to the modern and extraordinary.

Creative ideas

Fark yaratan, akılda kalan, unutulmaz lezzetlerin sırrı yaratıcılıkta yatıyor. Farklı tat arayışları, sıra dışı yorumlar, hayal gücünün eseri sunum olanaklarıyla bütünleşerek yeni deneyimlere yelken açıyor. Çay bardağında sunulan yaratıcı bir kokteyl hem lezzetiyle, hem göz alıcı cazibesiyle şaşırtırken yepyeni bir keşif yapmanın hazzını damaklara taşıyor. Bazen bir dondurma kupu, bazen bir vazo ya da bir kavanoz mükemmel bir bardağa dönüşüyor. Paşabahçe'nin yaratıcı tasarımlarıyla ortaya koyabileceğiniz fark yaratan lezzetler hayal gücünüz kadar sınırsız.

The secret of unforgettable tastes that make all the difference and stay in the memory lies in creativity. Sails unfurl towards new experiences by combining the search for different tastes, extraordinary interpretations and the presentation opportunities of the imagination. While a creative cocktail served in a tea glass both surprises with its taste and its eye-catching attractiveness, it conveys the pleasure of a new experience to the palate. Sometimes an ice-cream cup, or even a vase or jar transform into a perfect glass. With Paşabahçe's creative designs, the tastes that make all the difference you can serve are as unlimited as your imagination.
