CALEIDO

Caleido è la nuova linea di buffet progettata e realizzata da **Pinti Inox** per la ristorazione moderna, caratterizzata da:

COMPLETEZZA DI GAMMA

La linea è composta da 10 basi perfettamente abbinabili tra loro, in grado di soddisfare tutte le esigenze, dal grande hotel al piccolo ristorante.

VERSATILITÀ

Ogni articolo è composto da una base in acciaio e da una parte strutturale con misure Gastronorm: ciò garantisce un altissimo grado di personalizzazione e la massima intercambiabilità delle strutture per i vari momenti della giornata, dalla prima colazione alla cena.

DESIGN MINIMAL

La semplicità delle forme rende la linea Caleido adatta sia a contesti classici, eleganti e formali, sia a location moderne e di tendenza.

COLORE

Quattro i colori delle basi disponibili: **Salvia, Burro, Caffè, Carbone.**

Trovate l'acciaio troppo freddo? È possibile personalizzare i propri articoli inserendo bacinelle in porcellana bianca.

ROBUSTEZZA

Le strutture sono realizzate in acciaio inox verniciato a polvere, adatte a un utilizzo intensivo, anche all'aperto.

PERSONALIZZAZIONE

State cercando qualcosa di diverso? Richiedete un preventivo per personalizzare la Vostra sala con il colore e la composizione che avete in mente (per maggiori informazioni, vedete pag. 71)

Caleido is the new buffet line designed and manufactured by **Pinti Inox** following the modern catering trends asking for colour options, mix of materials and technical performance

WIDE RANGE

This product line includes 10 bases that can be combined together to meet the needs of big hotels and small independent restaurants

VERSATILITY

Each item is composed of a stainless steel base and a functional part following gastronorm standards. This makes the buffet modular and easily adaptable to the different meals of the day from breakfast to dinner since the same base can be used with several functional parts

MINIMAL DESIGN

The pure, neutral and minimal shape of the metal frames, makes Caleido buffet line suitable for all kind of location, from classic to modern

COLOUR

The metal bases are available in 4 different colours: **Sage, Cream, Coffee, Coal.**

Do you think the plain stainless steel is a bit too cold? Just add some porcelain trays on your gastronorm basin.

STRENGTH

All the structures are made of powder coated stainless steel, resistant to an intensive but also to an outdoor use.

PERSONALIZATION

Are you looking for something different? Ask for a quote to personalize your room with the color and the composition you are thinking about (for additional information, have a look to page 71).

SCEGLI E COMPONI

Choose and compose

Cosa state cercando? Scegliete le parti funzionali nelle varie sezioni del catalogo (Caldi, Freddi, Neutri, Basi a Ponte e Distributori), quindi abbinatetele alle basi del colore che preferite.

What are you looking for? You can choose the functional components in the specific sections of our catalogue (Hot, Cold, Neutral, Display Bridge Base and Distributors) and then combine them to your favorite bases.

ROLLER CALEIDO

Roller Caleido è il nostro innovativo sistema modulare progettato per soddisfare le esigenze dei professionisti del settore Ho.re.ca.

Roller Caleido è un carrello composto da una robusta struttura in metallo verniciato, studiata per coordinarsi con le tonalità del nostro Caleido, e arricchita da pannelli in legno laminato.

La versatilità di Roller Caleido si riflette nelle molteplici possibilità di personalizzazione: è possibile infatti scegliere il colore dei pannelli da una vasta gamma di essenze in legno

e arricchire la versione base con diversi accessori. Tutti i moduli hanno in dotazione il sistema di aggancio rapido “Click Catch” per poter fissare fra di loro due o più carrelli. È inoltre possibile richiedere la versione con 2 intagli nella parte superiore, realizzati per accogliere le parti funzionali della Nostra serie Caleido.

Con Roller Caleido, potete creare spazi accoglienti, eleganti e funzionali con estrema facilità: è la soluzione ideale per chi ricerca praticità e un'estetica raffinata nel mondo dell'ospitalità e della ristorazione.

Roller Caleido is our innovative and modular system designed to meet the needs of Horeca professional.

Roller Caleido is a tray composed by a robust structure of painted metal designed to match with the colours of our Caleido with the addition of laminated wood panels.

Roller Caleido can be customized in different ways. You can choose the colour of the panel from a wide range of wood colours and add different accessories to the basic version. All trolleys are provided with the 'Click Catch' quick coupling system,

enabling them to be easily fixed to each other. You can also choose the version with 2 holes on the top realized to place the functional part of our Caleido series.

With Roller Caleido you can easily create functional, elegant and cosy spaces. It's the perfect solution for a practical and elegant solution in the Catering world.

ACCIAIO E SPESSORI

La serie Gastronorm è prodotta con acciaio AISI 304, chiamato anche 18/10, negli spessori:

- 1 mm per i modelli 2/1
- 0,7 e 0,8 per le altre pezzature restanti

LUCIDATURA

Le altezze 100, 150, 200 sono sottoposte ad una operazione di normalizzazione termica e poi lucidate mediante burattatura. Oggetti di grandi dimensioni sono puliti per via elettrolitica.

Le altezze 65, 40 e 20 e sottoposte a trattamento chimico che permette di ottenere una lucidatura omogenea su tutta la superficie.

CONFEZIONE

Ogni singolo pezzo è sottoposto a lavaggio speculare ad alta temperatura 90° e confezionato in polipropilene pronto per l'uso già sterilizzato.

CAPACITÀ

I raggi ridotti al min. offrono il max della capienza nel minimo ingombro.

MATERIALI

Sono tutti certificati ed idonei al contatto con gli alimenti ai sensi dell' DM. 25-1-1992 art. 4-5° comma D.L. 208 e DIR. CEE 89/109.

LAVAGGIO

Resistenti all'uso prolungato in lavastoviglie.

MISURE

In accordo con gli standard internazionali della CEE doc. CEN/TC 194 EN631-1.

THE STEEL AND THE THICKNESSES

The Gastronorm range is made of AISI 304 steel also called 18/10, in the following thicknesses:

- 1 mm for the 2/1 models
- 0,7 and 0,8 for the remaining sizes

POLISHING

Heights 100, 150 and 200 are thermally normalised and then polished by tumbling. Large items are etch cleaned. Heights 65, 40 and 20 and are subjected to a chemical treatment permitting the attainment of even polishing over the entire surface.

PACKAGING

Each individual piece is bright washed at the high temperature of 90° and packaged in polypropylene, ready for use already sterilised.

CAPACITY

The finely rounded bottom edges offer maximum capacity in the minimum space.

MATERIALS

All the materials are certified to be suitable for contact with foodstuffs according to DM. 25-1-1992 art. 4 - 5th para. D.L. 208 and EEC Directive 89/109.

WASHING

Resistant to prolonged dish-washing.

SIZES

In accordance with the international EEC standards doc. CEN/TC 194 EN631-1.

NOTE INFORMATIVE Technical information

ACCIAIO INOX 18/10

L'acciaio Inox 18/10 - Aisi 304 viene fornito esclusivamente dalle principali acciaierie europee. La sua eccezionale resistenza alla ruggine, la brillantezza e le caratteristiche igieniche soddisfano i requisiti della moderna gastronomia. Esso infatti resiste agli acidi contenuti nei prodotti alimentari, nei detersivi. L'acciaio Inox 18/10 è antiurto e particolarmente adatto al lavaggio in lavastoviglie.

POLICARBONATO (PC)

Il polycarbonato è un polimero di pregio che racchiude alcune caratteristiche della plastica, dell'acciaio e del vetro. La trasparenza si avvicina al 90%. La resistenza meccanica alla deformazione ha un'elevata resistenza all'urto. L'elevata stabilità dimensionale viene garantita fino ad una temperatura di 130 gradi. In presenza di fiamma è autoestinguente.

Avvertenze. Non resiste a: soluzioni alcaline, acetone, ammoniacale, benzolo ed alcool metilico. Il materiale è sicuro dal punto di vista fisiologico e può andare a contatto con gli alimenti.

COMPONENTI IN LEGNO

Tutti i prodotti in legno sono realizzati in noce canaletto.

Avvertenze. Per mantenere a lungo la qualità del prodotto è necessario:

- Non immergere in liquidi o acqua
- Pulire con panno umido d'acqua
- Asciugare sempre con cura
- Evitare l'utilizzo di sostanze abrasive
- Tenere lontano da fiamme libere o fonti di calore
- Evitare l'esposizione prolungata al sole, per evitare variazioni di colore e deformazioni.

NB. Il legno essendo un prodotto naturale può assumere tolleranze diverse a seconda della temperatura e dell'umidità presente nell'ambiente circostante. Sono possibili eventuali gradazioni di colore e venature in quanto prodotto in legno naturale.

POLIETILENE

Il polietilene è ad alta resistenza e garantito per alimenti.

RESISTENZE

Sono adatte a un voltaggio di 220 Volts e dotate di spina schuko. Conformi alle leggi CEE. Per distributore bevande calde o chafing dish non utilizzare contenitori vuoti. Per il corretto utilizzo e per la manutenzione fare comunque riferimento alle note presenti all'interno della confezione.

18/10 AISI 304 STAINLESS STEEL

18/10 AISI 304 stainless steel is supplied almost exclusively by the main European steelworks. Its exceptional rust resistance, its brilliance and hygienic qualities satisfy the requirements of modern gastronomy; in fact, it resists to the acids contained in foodstuffs, detergents and is shockproof. 18/10 steel is dishwasher safe.

POLYCARBONATE (PC)

Polycarbonate is a valuable polymer that has some characteristics from plastics, steel and glass. Its transparency is close to 90%. Its strain strength has a high impact strength. Its high dimensional stability is guaranteed up to a 130-degree temperature. In the presence of flame, it is self-extinguishing.

Warning: it does not withstand: alkaline solutions, acetone, ammonia, benzol and methyl alcohol. The material is safe from the physiological point of view and can get in touch with food.

WOOD COMPONENTS

All the wood products are made in Canaletto walnut.

Warning. To guarantee the quality of the product in the time:

- Do not plunge in liquids or in water
- Clean with a water-dampened cloth
- Dry with care
- Do not use abrasive agents or solvents
- Keep away from flames or heat sources
- Do not expose to the sun for a long-time to avoid colour changes and deformations.

N.B. Wood is a natural product and can have different tolerances according to the environment temperature and humidity.

This product made of natural wood may have different colour nuances and veins China is suitable for food usage and does not contain harmful substances or release dangerous elements.

POLYETHYLENE

Polyethylene is highly resistant and suitable for foodstuff.

RESISTANCES

The electric resistance is suitable for 220 W voltage and are provided with schuko plug. In compliance with CEE norm. For hot drink dispenser and chafing dish. Do not use with empty drink dispenser and chafing dish. For a correct use please refer to the instructions leaflet inside the box.
